CAREER OBJECTIVE

Second-year Computer Engineering student at Datta Meghe College of Engineering building a strong foundation in full-stack web development. Focused on backend logic, clean architecture, maintainable code, and long-term engineering growth. Seeking a Web Development Internship to apply practical skills, contribute to real projects, and continue learning through hands-on development.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, TypeScript
Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, Backend Fundamentals
Databases & Tools: MySQL, Firebase Firestore, Git, GitHub, VS Code, Tailwind CSS, Vite, Figma
Core Concepts: Data Structures & Algorithms, Problem Solving, Clean Code Practices, OOP Concepts, REST APIs

ACADEMIC QUALIFICATIONS

Qualification	University / Board	Year	Percentage / CGPA
Computer Engineering	Mumbai University (DMCE)	2024 - 2028	8.8 CGPA (till sem 3)
HSC	Maharashtra State Board	2024	78.0%
SSC	State board of Maharashtra	2022	90.4%

TECHNICAL PROJECTS

Trinetra – Full-Stack Mental Wellness Ecosystem | *React.js, Node.js, Express.js, MySQL, Chart.js*

- Engineered a scalable web application focused on early emotional decline tracking using simplified emoji-based UX logic.
- Developed interactive mood analytics dashboards utilizing data visualization libraries to map emotional patterns over time.
- Architected secure server-side infrastructure integrating JWT Authentication, RESTful APIs, and a multi-tiered monetization subscription model.

Devaki – Women's Health & Period Care Platform | *React.js, TypeScript, Vite, Tailwind CSS, Firebase Firestore*

- Built an Indian-centric women's health platform tracking cycle variations, pain levels, lifestyle habits, and holistic Ayurvedic guidance.
- Integrated a scalable cloud database architecture using Firebase SDK and Firestore for real-time secure user profile sync.
- Created smooth client side transitions using Framer Motion animations combined with modular shadcn/ui interface components.

Electricity Bill Management System | *Java, OOP Concepts, MySQL*

- Designed and implemented a modular backend billing engine optimized for calculation parsing and structural tracking rules.
- Utilized Object-Oriented programming structures alongside transactional SQL logic to guarantee strict database storage stability.

EduPlan – Gamified Rural STEM Platform | *HTML5, CSS3, JavaScript, Frontend Architecture*

- Developed a responsive digital platform designed to improve foundational learning outcomes for students across rural schools.
- Programmed interactive gamified UI elements managing clean state transitions directly through vanilla browser execution.

PERSONAL INFORMATION

Languages: English, Hindi, Marathi

Nationality: Indian

DECLARATION

I hereby declare that the above information given by me is true to the best of my knowledge.

Date: May 25, 2026

Place: Maharashtra
